

## How to convert You Tube Videos to MP3

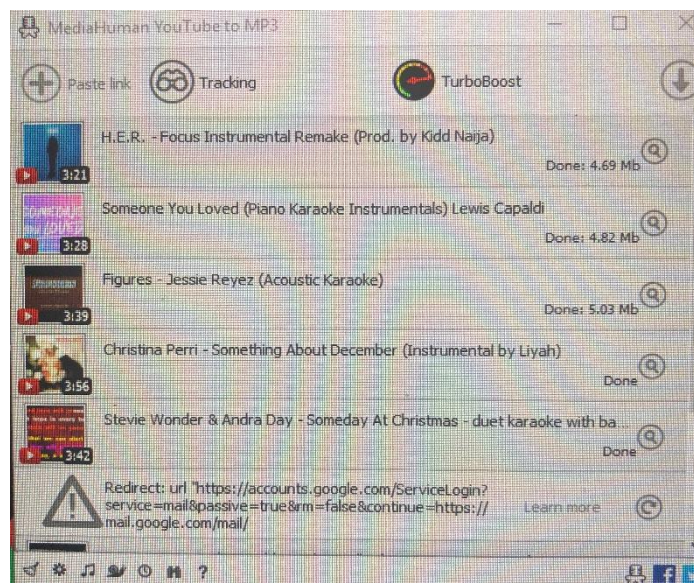

1. Download a software program such as Media Human to your computer. [www.mediahuman.com](http://www.mediahuman.com)

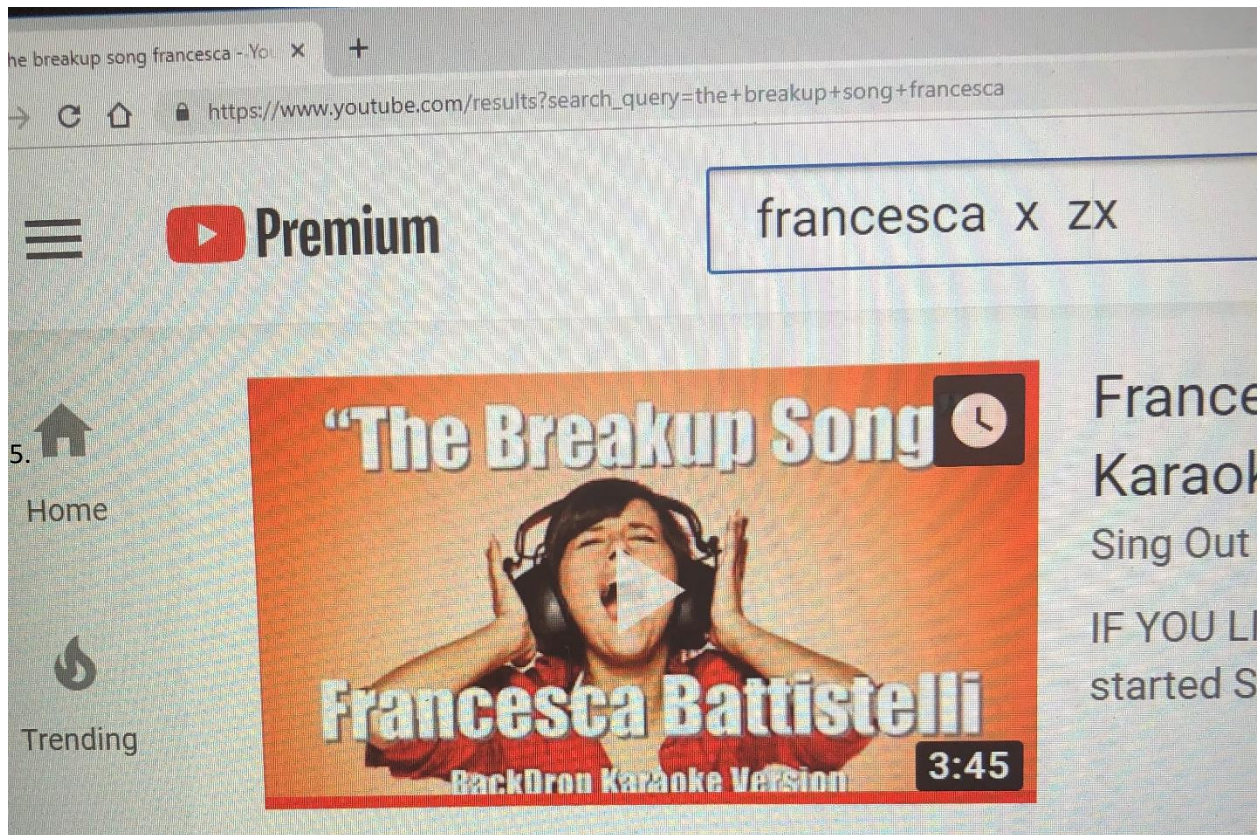

2. On your desktop, look for this Icon and click on it unless the next frame shows up on your desktop, then skip this step:

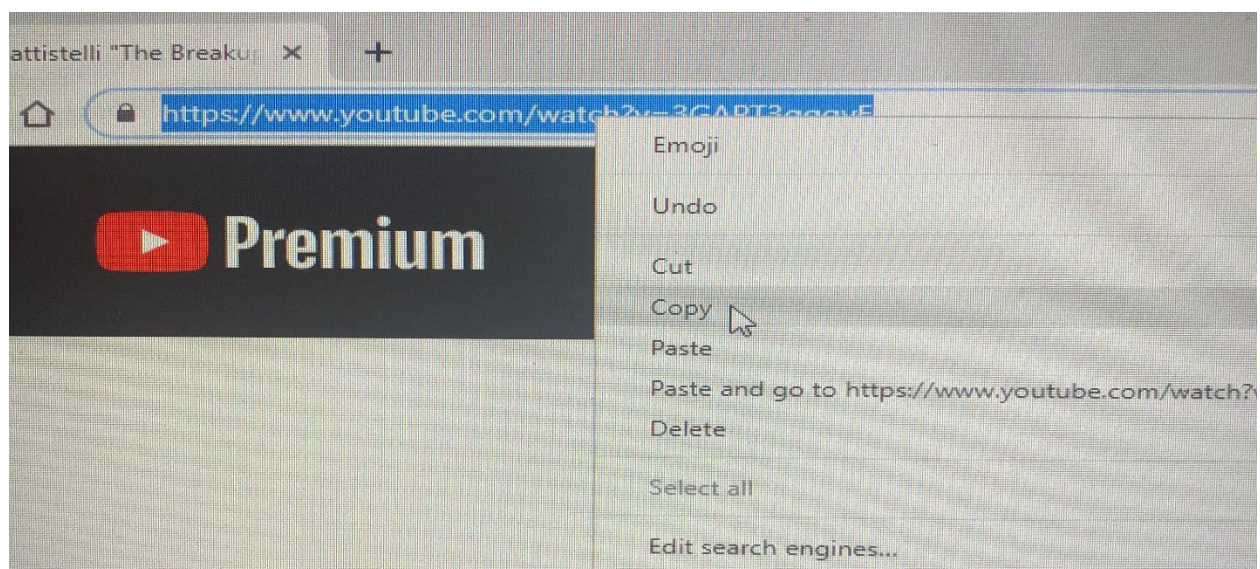

3. This is the conversion page and it will pop up. Don't do anything with this until after you visit You Tube.

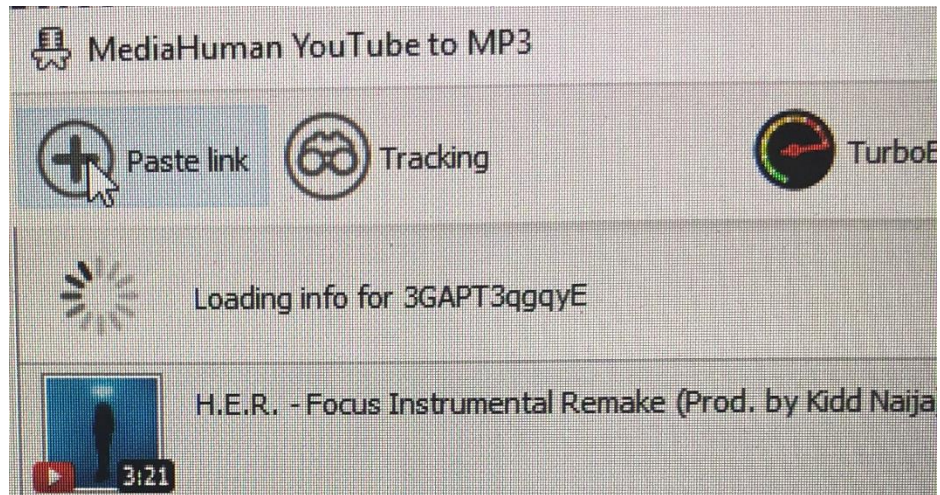

4. Open your browser. Go to [www.youtube.com](https://www.youtube.com) and type in the title of your song's karaoke track.

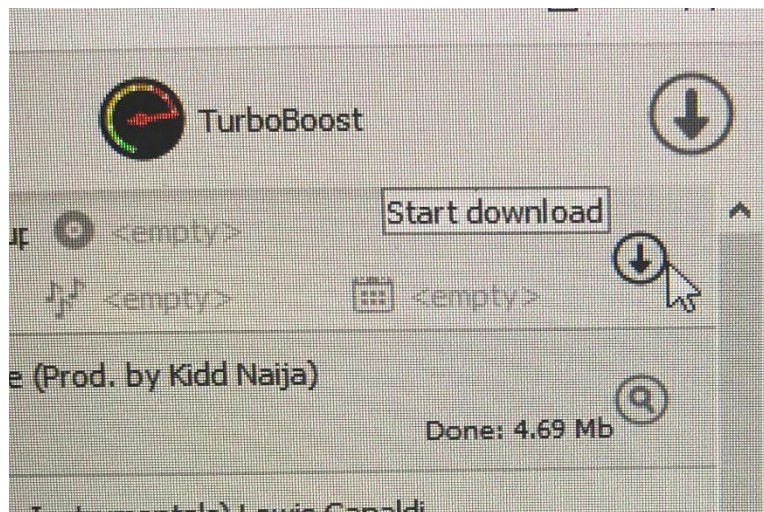

5. Copy the website address at the top.

6. Click the “Paste Link” and the song will load below.

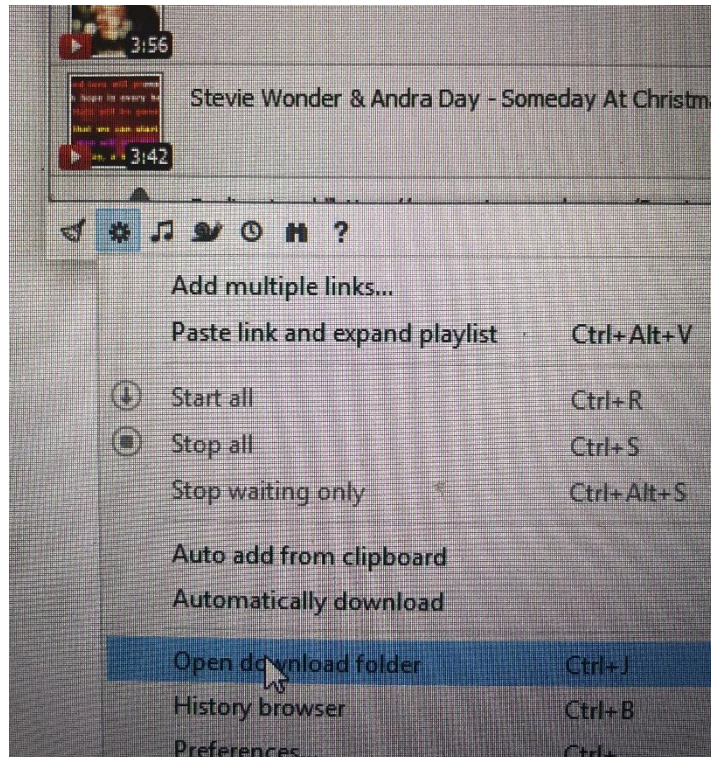

7. On the right side, click the down arrow to download the song into your music files on your computer.

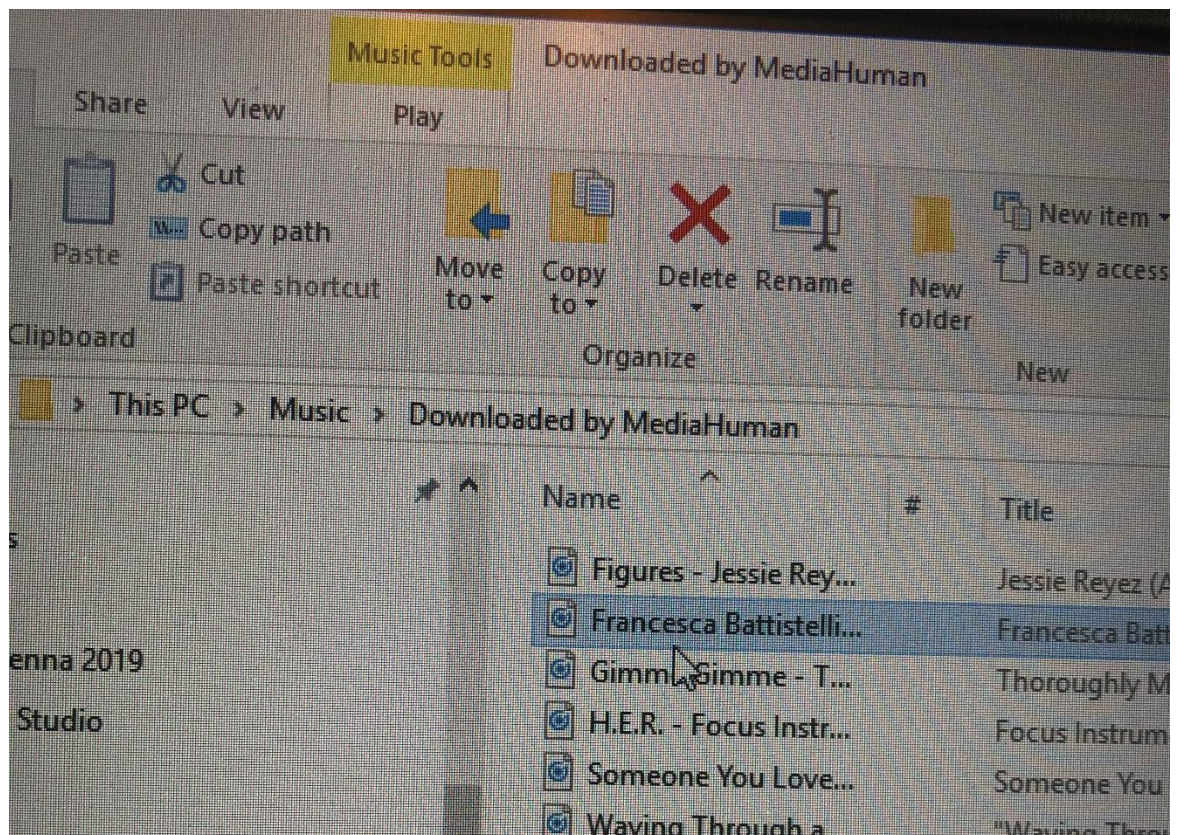

8. On the bottom left corner, click the “tools” button and click “Open Download Folder” to find your song file on your computer. (Next page)

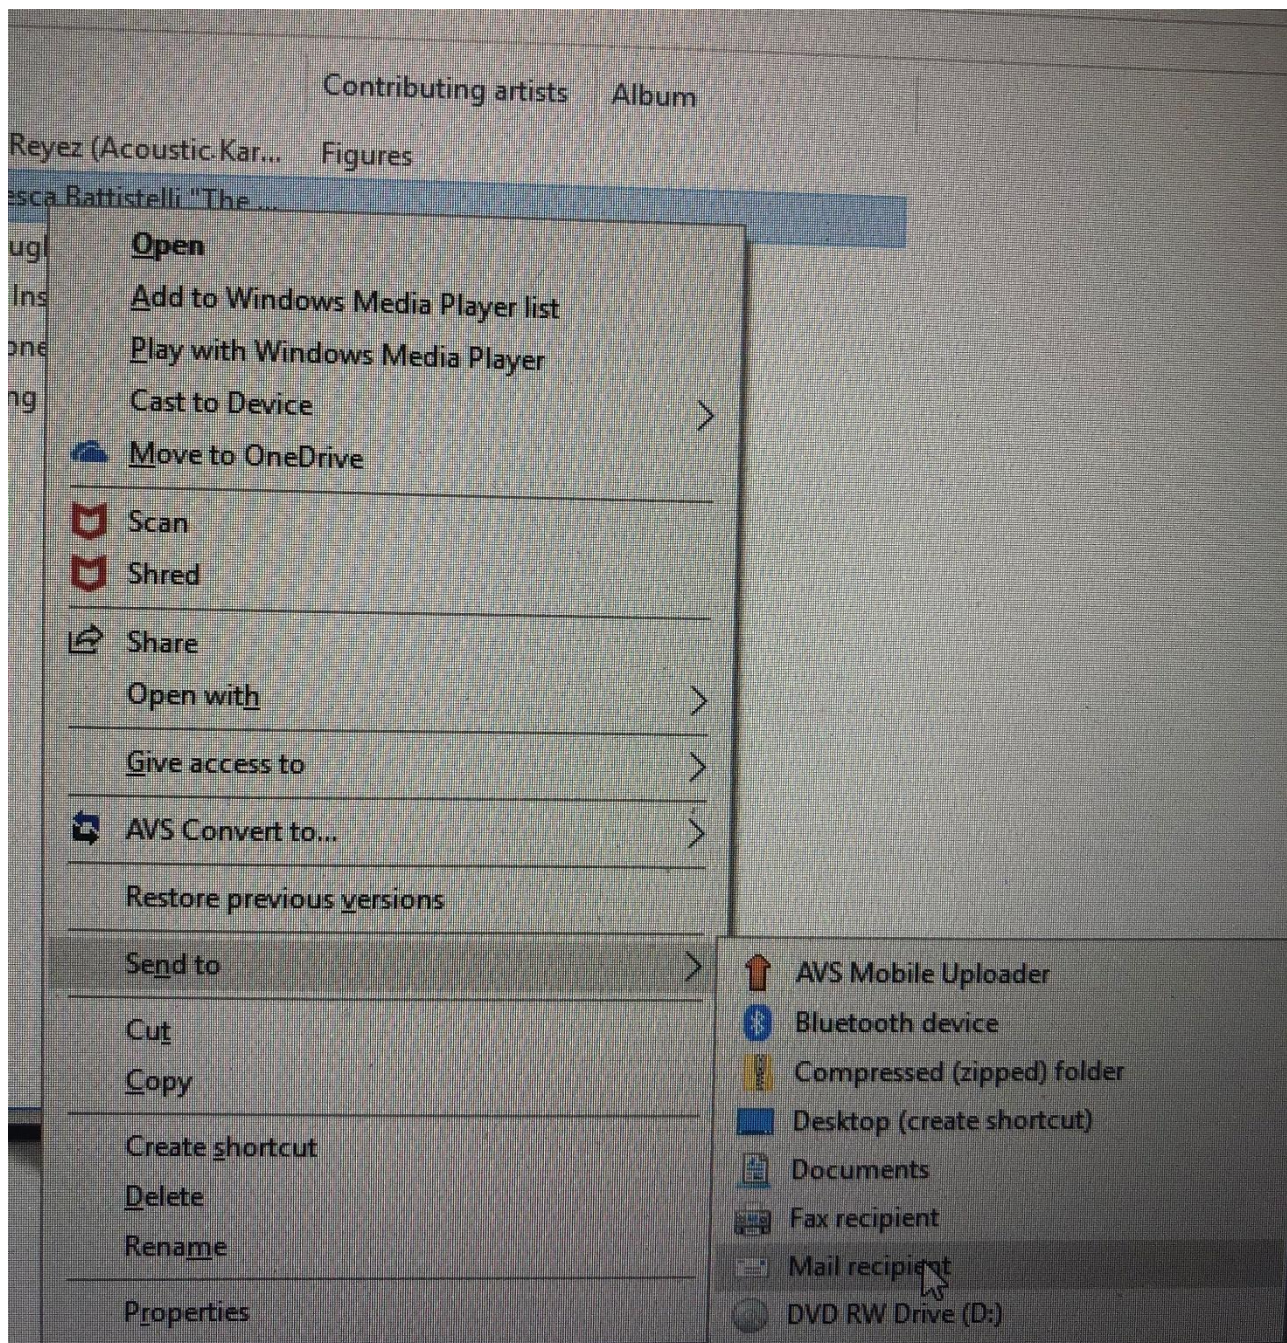

8.

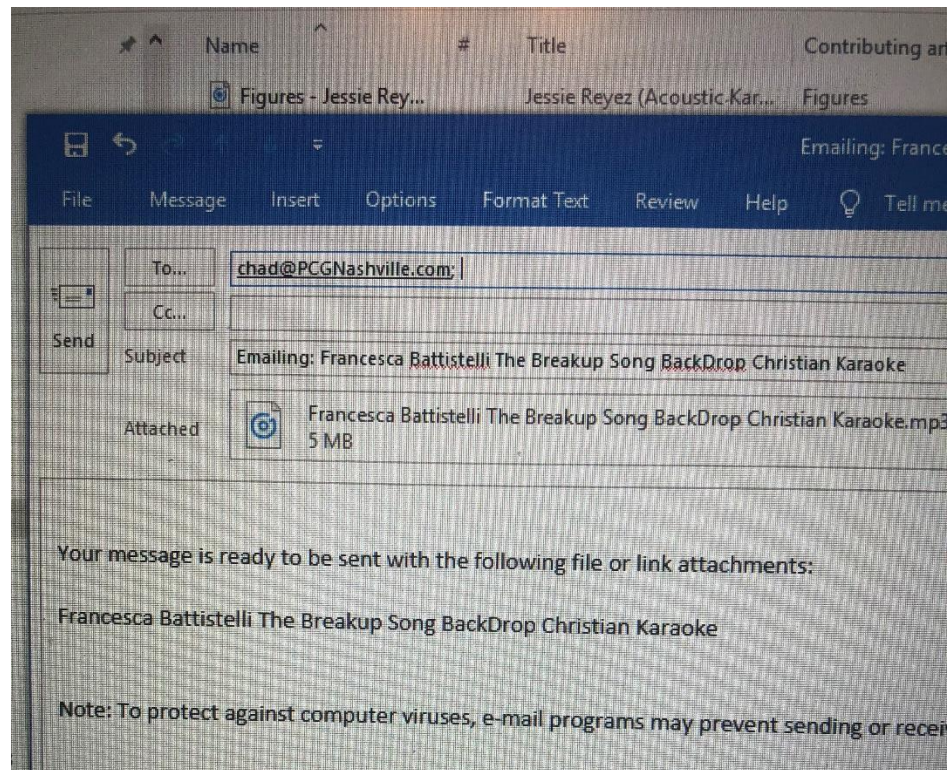

9. Find your song on the list and click to highlight it.

10. When this screen opens, click "Send To" and select "Mail Recipient" in the dropdown box.

11. When the email box pops up, type the recipient's email into the box. For PCG songs, send it to [Chad@pcgnashville.com](mailto:Chad@pcgnashville.com). Be sure to type in your name with the song title in the Body of the email.

12. Send Chad a separate email just to confirm he received your song.
